Laura,

I'm sure you're just as busy as I am, but you might want to take a look over these draft plans for Coffee Creek and Mossy Lake if you can find the time. Jessica had been heavily involved with a study that we developed in 2007 to show that these waterbodies have aquatic life uses. The facility is conducting it's own project to show otherwise, though we were told that this was going to be a project to develop a sub-category of aquatic life use. I'm not quite so sure, but I just started reviewing it. Any input you might have would be greatly appreciated.

Thanks,

Matt

Subject: FW: Draft For Review

---

Matt,

GP Crossett finally sent their workplan and QAPP. I'm really sorry I didn't send this to you sooner. They plan on starting up soon. Thanks for looking at this. I'm still waiting on feedback from Fayetteville. I'll let you know as soon as hear anything.

Sarah

Sarah,

Please find attached the Draft Work Plan and related QAAP for the UAA associated with Coffee Creek. Once you have completed your review, please forward your comments back to me so we can capture /

address them prior to final issuance of the Work Plan and QAPP. If you feel that we need to have a follow-up meeting of need any further information, please let me know.

Thanks very much for your guidance and assistance,
